

## Suggested STEM CIP Codes Available or Submitted to DHS for Approval

As of January 2023, at least 56 colleges and universities have changed their accounting curriculums to increase the technology requirements for accounting and accounting-related degrees, almost exclusively at the master's level. Professors of these programs and/or accounting department chairs have approached and received approval from school registrars/other campus officials to change the Classification of Instructional Programs (CIP) codes for these degrees to fit under STEM, specifically technology CIP codes.

The AICPA is aware that five codes been used to date:

- ► 11.1003 Computer and Information Systems Security/Information Assurance
- ▶ 45.0603 Econometrics and Qualitative Economics
- ▶ 52.1301 Management Sciences and Quantitative Methods
- ▶ 52.1399 Management Sciences and Quantitative Methods, Other
- ▶ 27.0305 Financial Mathematics

Other CIP Codes to investigate for possible use by accounting programs include the following:

- ▶ 11.0101 Computer and Information Sciences, General
- ▶ 11.0103 Information Technology
- ▶ 11.0401 Information Science / Studies
- ► 30.7101 Data Analytics
- ▶ 30.7102 Business Analytics
- ▶ 30.7103 Data Visualization
- ▶ 30.7104 Financial Analytics
- ▶ 30.7199 Data Analytics, Other
- ▶ 43.0106 Forensic Science and Technology
- ▶ 45.0603 Econometrics and Quantitative Economics

Additionally, AICPA is seeking approval from the Department of Homeland Security/Student and Exchange Visitor Program to designate the following CIP codes as STEM fields. It is expected that DHS will announce amendments to the DHS Stem Designated Degree Program List in early 2023.

- ▶ **52.0301** Accounting
- ▶ 30.1601 Accounting and Computer Science
- ▶ 52.0304 Accounting and Finance
- ▶ 52.0303 Auditing
- ▶ 43.0405 Financial Forensics and Fraud Investigation
- ▶ **52.1601** Taxation
